## THEO. LACEY WAS NOT CAPTURED LAST NIGHT AS WAS REPORTED

Detatives On Trail With Hopes In Capturing Him, But Not Successful Yet As Reported From Montgomery Today.

### BURNS DETECTIVE QUILTS ATLANTA'S "FAMILY" ROW

Montgomery Ala May 28—(Special)— Detective Burns returned from Dallas today but without Lacy. They are confident he is in northern Dallas but he seems to have more friends there than the detectives have so he has successfully eluded them.

That part of the county is composed of terrible thickets and some hills. Lacy was raised there. The hunt has not been abandoned. Detectives are positive that Lacy is in Dallas.

Following story was carried by the Advertiser this morning:

Montgomery Ala May 28—It was received in Montgomery at early hour Thursday morning, which could not be confirmed, we're to the effect that Theo Lacy, a second employee of the State Convict Bureau had been captured at Fremont just across the Dallas line in Autauga county. Though this rumor was persistent and tricked into the capitol from several sources confirmation was lacking.

Governor O'Neal was without information as to the rumored capture but admitted that he knew searchers for the missing man had been in high hopes of locating the latter via the vicinity mentioned. It is known that searchers from Montgomery and Birmingham left their respective cities early Wednesday morning the plan being to join forces in Dallas county.

Word from Selma from which place the most recent rumors came had it that Lacy had been captured by the officers and was being brought to Montgomery in an automobile. The additional detail was given in one story that the capture had been effected only after a sharp fight between the men sought and the would be captors whether any fatalities resulted or not the story did not say.

#### Conductor's Story.

First hint of the rumored capture seems to have reached the Iron City with a conductor passing through Fremont en route from Maplesville to Selma in charge of Southern Railway train No. 40. It was that Lacy had been taken in hand less than a mile from Fremont and that his captors had him set out for the state capital in automobile.

It parts more or less similar but all conflicting in minor details were released from that city to Montgomery.

The Advertiser established telephonic communication with every available town in the vicinity of the reported catch, and thus through which the returning party would pass en route to Montgomery but without satisfactory confirmation.

The response from these places added little. Yes they had heard that Lacy had been caught but the reports had not passed that who had authority report of the capture had been received.

Whether the abounding opinion of the state was taken in hand or not it quickly became clear that the all of several Central Alabama towns was alive with rumors. Obviously there was a feeling that the men were being drawn more closely about the man wanted and those in touch with the situation were in a momentary expectation of hearing that the long search has ended.

The ball game on Friday will be called at 5 o'clock in order that everybody may attend the Chautauqua and the ball game both. The Cleojo Ladies Orchestra will begin their popular program promptly at 8:30 and close at 4:45 and the game will be held until the chautauqua crowd reaches the ground.

## WHITE HOUSE MINT PATCH IS NOW FAMOUS

Washington May 28—The white mint patch referred to by Col. Roosevelt in his testimony in the Abel suit if he is pressing at Monteith Mich promises to become a much an object of interest to tourists as the Washington monument or the Library of Congress. Already tourists are asking to see white house police to point out the bed which gave up its fragment leaves for Colonel Roosevelt's occasional jollies.

The bed is 15 feet long by 10 wide is situated alongside a little work house used by the white house laundry in which to dry clothes.

Although mint always has been within easy reach of the white house porch the present patch was established by President McKinley. President Taft seldom used it although it furnished its part to many a refreshment jollies served to Mr. Taff's callers.

President Wilson also uses it for garnishing spring lamb.

## MILTON CROWD TAKES A NEGRO FROM PULLMAN

Montgomery May 28—Taken from the negro toilet room by a crowd numbering about seventy five who met the train at Milton and say it from rough treatment of nothing worse through the prompt action of Sheriff Harrell of Santa Rosa county was the experience of a well dressed negro who, desiring to occupy a day coach with his own race purchased a Pullman ticket at the service station New Orleans yesterday morning and started to ride over the P & O division. He is now at Milton where he was placed in safe keeping, and probably spent an uncomfortable night.

Engers reaching the city last night at 10 o'clock told of the current. The negro, injured the ride in the Pullman, it seems until he had passed Tallahassee. Then word got out that he was down at each succeeding station. His crowds would meet him half way.

It first excited the curiosity of the negro but before the train reached Albany he decided that more comfortable seats could be found in the colored couch. The desire to mingle with those of his own race probably was brought about by some one whispering something to him when a crowd entered the car.

He was called into the train and the conductor and engineer refused to allow the crowd which numbered about six five to enter. Before the train

could leave the station someone on the outside began raising the window of the toilet and the negro at once fled. The door was then closed and a search was made throughout the car.

He was seized just outside of Albany but had succeeded in getting away. The negro was in the crowd and the immediate took the fugitive into custody and kept the crowd off. The man was placed in the county jail for safe keeping until he was safe this morning at 4 o'clock.

Housekeeping is woman's work—no man dares that. Government is public housekeeping practically everybody agrees to that. But it is foolish to keep out of government than the very people who have had most training for a large part of its function? Men have never regarded it as inconvenient for women to do the scrubbing and cleaning, indeed—ever in public places like office buildings. Why, they should they think it unwomanly for women to keep the streets clean? Woman a Journal

The machine is here which Allie Roth designated as the manufacturer of mankind. It only requires to mankind to enclose itself from it. Man has impressed the elements to his will let him now harness his will to control the giant he has call out into life. The machine must go longer be allowed to enslave the lower portion of the human race for the benefit of only a very few.

The machine must be reflected by woman. She is part of society and so is entitled to her common rights. Women and children, as well as men, must no longer be denied by the machine. —Olive M. Johnson.

**A GOOD DECISION.**

The United States Supreme Court has just rendered a decision which prevents the owner of a patent from controlling the price at which the article shall sell.

This decision is decidedly in favor of the consumer. There are many things on which both the wholesale and retail price is fixed by the manufacturer and a dealer failing to abide by the manufacturer's price list in selling the article is black-listed and goes no more of it.

It seems that after the retailer has paid the manufacturer his price for an article, that he should be allowed to sell it for any price that he could get that was fair and reasonable, or even give it away if he desired.

This decision will prevent the manufacturer from controlling the wholesale and the retail price of patented or copyrighted articles.

You get up with a scowl on your face, a lump in your stomach, a weight on your soul. You look out and see no sunshine. Drizzling rain dampens everything. It is a grey, morose day. Weather you never wrote to your wife. A bad day to day you persistently and positively hardly say to everyone you meet.

You fool! There is no such thing as a bad day! Good days and bad days exist only in your own head. The weather has nothing to do with it. Each day is what you make it for yourself. Bad weather is only an unfortunate opinion.

Suppose it is raining, pitchforks! You just wonder if your salary has been doctored or that a folktale in the sky has left you a million dollars. What do you care about the wealth or them? Or suppose the person you love is dying. Unexpectedly a tear for the better comes. The doctor says your dear one will live. What if it is hotter than Pethol? It is a good day a great day a happy day.

It is what you think and feel about it that makes each what it is. You within yourself can judge each day, every day, a good day. Put down in the note-book of your soul the poor Rumsberg's thought:

"Each day is a life."
